RDW = Red cell distribution width  
 MPV = Mean platelet volume  
 PDW = Platelet distribution width  
 PCT = Platelet-crit

Reference values were established using adult animals (> 1 year).  
 Foal reference values were established using animals < 24 hours old.  
 Cats were FeLV negative.  
 Cattle are adult dairy cows at mid-lactation and tested BLV negative.  
 Alpaca age range 6mths-7yrs/male & female
