

Georgia State University International Applicant Financial Information

Per U.S. Federal Regulations, each applicant who is in F-1 status or will be obtaining an F-1 visa is required to submit proof of finances for at least one academic year of study.

The information below is designed to help students determine how much funding is required and what documents are needed to be approved for study at Georgia State.

Estimated Costs Of Attendance — Graduate Programs —

This is not a bill. The figures below represent the average costs of studying and living in Atlanta; your personal experience may differ significantly, based on number of credit hours, lifestyle, etc. The tuition and fees amounts below reflect the 2022-2023 rates. If you are planning to attend the university for 2023-2024 academic year, please expect an undetermined and significant increase in tuition and fees in your financial documentation. Remember to add any dependent costs (if applicable) to the total amount shown below to determine the total amount you are required to show for I-20 issuance at Georgia State.
